January 30, 2003

Dear Recipient:

It has been brought to our attention that there has been a problem with the mailing of the Department's 30-Day Public Notice Report dated January 3, 2003. Therefore, in order to satisfy the requirements of the Procedures Concerning Certain Licenses Act, IC 14-11-4, and its associated administrative rule, 312 IAC 2-3, the DNR 30-Day Public Notice for that date is being re-issued and is enclosed. We apologize for any inconvenience this may have caused.

Sincerely,

Andrea Gromeaux  
Section Manager, Technical Services Section  
Division of Water

Enclosure: DNR 30-Day Public Notice, dated January 30, 2003

## 30 Day Public Notice Report

---

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director  
Division of Water  
Room W264  
402 West Washington Street  
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water  
Room W264  
402 West Washington Street  
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Application # : FW-22160

Stream : Rock Run Creek

Applicant : City of Goshen  
Mary Pfahler  
Engineering Department  
204 East Jefferson Street  
Goshen, IN 46528-3404

Description : A 50' x 120' area will be filled in the north floodplain of Rock Run Creek. The fill will be approximately 6' deep and will match existing surrounding grade when completed. The fill's finished elevation will be 780', NGVD. The fill material will be obtained from the Third Street CSO project. Details of the project are contained in information and plans received at the Division of Water on December 13, 2002 and December 16, 2002.

Location : Along the right (northeast) overbank; approximately 100' upstream of the 1st Street stream crossing

Application # : FW-22170

Stream : West Fork White River

Applicant : Centre Properties  
Craig Johnson  
9333 North Meridian Street, Suite 275  
Indianapolis, IN 46260-1846

Description : An approximate 15.4 acres within the floodway, an area measuring approximately 400' x 1700', will be filled along the east overbank of the West Fork White River. The area will be used for the future development of a commercial center, an expansion of an existing, adjacent cemetery, and a forest area. The fill will be about 545' from the river bank at the nearest point, have side slopes at the perimeter of approximately 3:1 with the top elevations ranging from 748.0' NGVD (landward side) to 744.0' NGVD (streamward side). In addition, a 2000' long channel with an average width of about 230' will be excavated beginning at the river just north of the 96th Street bridge crossing and running parallel within 250' of the east streambank and will reconnect with the West Fork White River about 2000' upstream. This new flood conveyance channel will compensate for the loss of flow area associated with the fill and will result in an area of wet habitat for fish and wildlife. Details of the project are contained in plans and information received at the Division of Water on December 27, 2002 and January 17, 2003.

Location : Located on the east side of the river immediately north of 96th Street and continuing upstream for approximately 2700'  
DOWNSTREAM: near Fishers, Delaware Township, Hamilton County  
SE¼, Section 9, T 17N, R 4E, Fishers Quadrangle
